Author index

Åkerström, G., see Wallfelt, C. (969) 257
Anderer, F.A., see Pfaff, M. (969) 100
Audebet, C., see Mithieux, G. (969) 121

Barber, M.J., see Rosen, G.M. (969) 236
Barzen, K.A., see Quissell, D.O. (969) 28
Beekman, R.E., Van Hardeveld, C. and Simonides, W.S.
Effect of thyroid state on cytosolic free calcium in resting and electrically stimulated cardiac myocytes (969) 18
Bette, P., see Presek, P. (969) 271
Bevington, A., see Kemp, G.J. (969) 139
Bevington, A., see Kemp, G.J. (969) 148
Bollen, M., Vandenheede, J.R., Goris, J. and Stalmans, W.
Characterization of glycogen-synthase phosphatase and phosphorylase phosphatase in subcellular liver fractions (969) 66
Borová, J., see Fuchs, O. (969) 158
Brindle, K.M., see Mitsumori, F. (969) 185
Britigan, B.E., see Rosen, G.M. (969) 236
Burgoyne, R.D., see O'Sullivan, A.J. (969) 211
Burnham, D.B., Sung, C.K., Munowitz, P. and Williams, J.A.
Regulation of protein phosphorylation in pancreatic acini by cyclic AMP-mediated secretagogues: interaction with carbamylcholine (969) 33

Campbell, I.D., see Mitsumori, F. (969) 185
Carmena, M.J., Recio, M.N. and Prieto, J.C.
Influence of castration and testosterone treatment on the vasoactive intestinal peptide receptor/effector system in rat prostatic epithelial cells (969) 86
Castranova, V., see Rao, K.M.K. (969) 131
Christiansen, N.O., see Larsen, C.S. (969) 281
Cohen, M.S., see Rosen, G.M. (969) 236

Deisher, L.M., see Quissell, D.O. (969) 28
Delicado, E.G., see Torres, M. (969) 111
De Miguel, R., Tamagawa, T., Schmeer, W., Nenquin, M. and Henquin, J.C.
Effects of acute sodium omission on insulin release, ionic flux and membrane potential in mouse pancreatic B-cells (969) 198
Dunn, M.J., see Wang, J. (969) 217

Ellington, S.P., see Rosen, G.M. (969) 236
Esmann, V., see Larsen, C.S. (969) 281

Findik, D., see Presek, P. (969) 271
Fuchs, O., Borová, J., Hradilek, A. and Neuwirt, J.
Non-transferrin donors of iron for heme synthesis in immature erythroid cells (969) 158

Ganas, L., see Studer, R.K. (969) 78
Ginzburg, M., Ratcliffe, R.G. and Southon, T.E.
Phosphorus metabolism and intracellular pH in the halotolerant alga *Dunaliella parva* studied by ^{31}P-NMR (969) 225
Goris, J., see Bollen, M. (969) 66
Grindley, H., see Osterloh, K. (969) 166
Gylfe, E., see Wallfelt, C. (969) 257

Hawkins, D.J., Meyrick, B.O. and Murray, J.J.
Activation of guanylate cyclase and inhibition of platelet aggregation by endothelium-derived relaxing factor released from cultured cells (969) 289
Henquin, J.C., see De Miguel, R. (969) 198
Hirai, R., see Hiraki, Y. (969) 91
Hiraki, Y., Inoue, H., Hirai, R., Kato, Y. and Suzuki, F.
Effect of transforming growth factor β on cell proliferation and glycosaminoglycan synthesis by rabbit growth-plate chondrocytes in culture (969) 91
Hradilek, A., see Fuchs, O. (969) 158

Inoue, H., see Hiraki, Y. (969) 91

Jans, A.W.H. and Kinne, R.K.H.
Characterization of the renal epithelial cell line, PKE 5, using ^{31}P- and ^{13}C-NMR spectroscopy (969) 194
Johansson, H., see Wallfelt, C. (969) 257
Joseph, S., Krishnamurthi, S. and Kakkar, V.V.
Differential effects of the diacylglycerol kinase inhibitor R59022 on thrombin versus collagen-induced human platelet secretion (969) 9

Kakkar, V.V., see Joseph, S. (969) 9
Kato, Y., see Hiraki, Y. (969) 91
Kemp, G.J., Bevington, A., Khodja, D. and Russell, R.G.G.
Regulation of phosphate metabolism in human red cells following prolonged incubation to steady state in vitro (969) 139
Kemp, G.J., Bevington, A., Khodja, D. and Russell, R.G.G.
Net fluxes of orthophosphate across the plasma membrane in human red cells following alteration of pH and extracellular P_i concentration (969) 148

Kester, M., see Wang, J. (969) 217
Khodja, D., see Kemp, G.J. (969) 139
Khodja, D., see Kemp, G.J. (969) 148
Kinne, R.K.H., see Jans, A.W.H. (969) 194
Krishnamurthi, S., see Joseph, S. (969) 9

Larsen, C.S., Christiansen, N.O. and Esmann, V.
Protein kinase C activity in activated human T-lymphocytes stimulated by interleukin-2 (969) 281
Larsson, R., see Wallfelt, C. (969) 257
Lin, Y.Y., Wright, C.E., Zagorski, M. and Nakanishi, K.
^{13}C-NMR study of taurine and chlorotaurine in human cells (969) 242
Lindh, E., see Wallfelt, C. (969) 257
Littlefield, B.A., see Manzer, D.S. (969) 40

Manzer, D.S. and Littlefield, B.A.
Stimulation of IgG production by glucocorticoids in human myeloma lymphoblasts (969) 40
Matsuura, R., Tanigawa, Y., Tsuchiya, M., Mishima, K., Yoshimura, Y. and Shimoyama, M.
ADP-ribosylation suppresses phosphorylation of the L-type pyruvate kinase (969) 57
Meyrick, B.O., see Hawkins, D.J. (969) 289
Miras-Portugal, M.T., see Torres, M. (969) 111
Mishima, K., see Matsuura, R. (969) 57
Mithieux, G., Audebet, C. and Rousset, B.
Association of purified thyroid lysosomes to reconstituted microtubules (969) 121
Mitsumori, F., Rees, D., Brindle, K.M., Radda, G.K. and Campbell, I.D.
^{31}P-NMR saturation transfer studies of aerobic *Escherichia coli* cells (969) 185
Montrose, M.H., see Moran, A. (969) 48
Moran, A., Montrose, M.H. and Murer, H.
Regulation of Na^+–H^+ exchange in cultured opossum kidney cells by parathyroid hormone, atrial natriuretic peptide and cyclic nucleotides (969) 48
Munowitz, P., see Burnham, D.B. (969) 33
Murer, H., see Moran, A. (969) 48
Murray, J.J., see Hawkins, D.J. (969) 289

Nakanishi, K., see Lin, Y.Y. (969) 242
Nenquin, M., see De Miguel, R. (969) 198
Neuwirt, J., see Fuchs, O. (969) 158
Nogee, L., see O'Reilly, M.A. (969) 176

O'Reilly, M.A., Nogee, L. and Whitsett, J.A.
Requirement of the collagenous domain for carbohydrate processing and secretion of a surfactant protein, SP-A (969) 176
Osterloh, K., Snape, S., Simpson, R.J., Grindley, H. and Peters, T.J.
Subcellular distribution of recently absorbed iron and of transferrin in the mouse duodenal mucosa (969) 166
O'Sullivan, A.J. and Burgoyne, R.D.
The role of cytoplasmic pH in the inhibitory action of high osmolarity on secretion from bovine adrenal chromaffin cells (969) 211

Peters, T.J., see Osterloh, K. (969) 166
Pfaff, M. and Anderer, F.A.
Casein kinase II accumulation in the nucleolus and its role in nucleolar phosphorylation (969) 100
Pfeilschifter, J.
Protein kinase C from rat renal mesangial cells: its role in homologous desensitization of angiotensin II-induced polyphosphoinositide hydrolysis (969) 263
Plagemann, P.G.W. and Woffendin, C.
Species differences in sensitivity of nucleoside transport in erythrocytes and cultured cells to inhibition by nitrobenzylthioinosine, dipyridamole, dilazep and lidoflazine (969) 1
Presek, P., Reuter, C., Findik, D. and Bette, P.
High-yield purification of a pp60$^{c\text{-}src}$ related protein-tyrosine kinase from human platelets (969) 271
Prieto, J.C., see Carmena, M.J. (969) 86

Quissell, D.O., Deisher, L.M. and Barzen, K.A.
Subcellular distribution and activation of rat submandibular cAMP-dependent protein kinase following β-adrenergic receptor stimulation (969) 28

Radda, G.K., see Mitsumori, F. (969) 185
Rao, K.M.K. and Castranova, V.
Phenylmethylsulfonyl fluoride inhibits chemotactic peptide-induced actin polymerization and oxidative burst activity in human neutrophils by an effect unrelated to its anti-proteinase activity (969) 131
Rastad, J., see Wallfelt, C. (969) 257
Ratcliffe, R.G., see Ginzburg, M. (969) 225
Recio, M.N., see Carmena, M.J. (969) 86
Rees, D., see Mitsumori, F. (969) 185
Reuter, C., see Presek, P. (969) 271
Rosen, G.M., Britigan, B.E., Cohen, M.S., Ellington, S.P. and Barber, M.J.
Detection of phagoctye-derived free radicals with spin trapping techniques: effect of temperature and cellular metabolism (969) 236
Rousset, B., see Mithieux, G. (969) 121
Russell, R.G.G., see Kemp, G.J. (969) 139
Russell, R.G.G., see Kemp, G.J. (969) 148

Schmeer, W., see De Miguel, R. (969) 198
Shimoyama, M., see Matsuura, R. (969) 57
Simonides, W.S., see Beekman, R.E. (969) 18
Simpson, R.J., see Osterloh, K. (969) 166
Snape, S., see Osterloh, K. (969) 166
Southon, T.E., see Ginzburg, M. (969) 225
Spiegel, S.
Insertion of ganglioside G_{M1} into rat glioma C6 cells renders them susceptible to growth inhibition by the B subunit of cholera toxin (969) 249
Stalmans, W., see Bollen, M. (969) 66
Studer, R.K. and Ganas, L.
Adrenergic receptor properties of hepatocytes from male and female rats (969) 78
Sung, C.K., see Burnham, D.B. (969) 33
Suzuki, F., see Hiraki, Y. (969) 91

Tamagawa, T., see De Miguel, R. (969) 198
Tanigawa, Y., see Matsuura, R. (969) 57
Torres, M., Delicado, E.G. and Miras-Portugal, M.T.
Adenosine transporters in chromaffin cells: subcellular distribution and characterization (969) 111
Tsuchiya, M., see Matsuura, R. (969) 57

Vandenheede, J.R., see Bollen, M. (969) 66
Van Hardeveld, C., see Beekman, R.E. (969) 18

Wallfelt, C., Lindh, E., Larsson, R., Johansson, H., Rastad, J., Åkerström, G. and Gylfe, E.
Kinetic evidence for cytoplasmic calcium as an inhibitory messenger in parathyroid hormone release (969) 257
Wang, J., Kester, M. and Dunn, M.J.
The effects of endotoxin on platelet-activating factor synthesis in cultured rat glomerular mesangial cells (969) 217
Whitsett, J.A., see O'Reilly, M.A. (969) 176
Williams, J.A., see Burnham, D.B. (969) 33
Woffendin, C., see Plagemann, P.G.W. (969) 1
Wright, C.E., see Lin, Y.Y. (969) 242

Yoshimura, Y., see Matsuura, R. (969) 57

Zagorski, M., see Lin, Y.Y. (969) 242
